Education:

Digital Media Software Engineering
Ferris State University • Michigan • August-2024
IEEE student member • Dean's List 2022-2023

Work Experience:

Software Engineer Intern
Masetto Logistics
September 2023 - December 2023, Remote

- Designed and developed features in Python, utilizing API calls for real-time updates for fleet management.
- Created React front-end application for user-friendly interface and fleet visualization on an interactive map.
- Implemented comprehensive fleet monitoring solution, enhancing operational capabilities through real-time tracking.
- Collaborated in daily standup meetings and biweekly scrum gatherings, fostering agile teamwork and communication.

Software QA Engineer Intern
Barracuda
June 2023 - August 2023, Ann Arbor, MI

- Created Python and Selenium automation tool to streamline error resolution for complex job executions.
- Executed functional tests and UI testing for the Cloud-to-Cloud Backup web application.
- Leveraged JavaScript and MABL test automation tool for quality assurance and performance.
- Crafted comprehensive test cases and performed backend testing for data protection project's soft-delete tool.

Skills:

Front end: JavaScript, React, HTML
Backend: Java, JDBC, REST API
Data Flow: ETL, Data Pipelines
Automation: Selenium, API Calls, Python
Security: SSL, Data Transmission

Database Connectivity: JDBC

Collaboration: Agile, Communication

Troubleshooting: Problem-solving

Containerization: Docker

Compliance: Best Practices

Emerging Technologies: Continuous Learning
